

We're the Operating System for the Music Industry

The music rights industry runs on us

27 billion matches

daily turn every music usage into rights

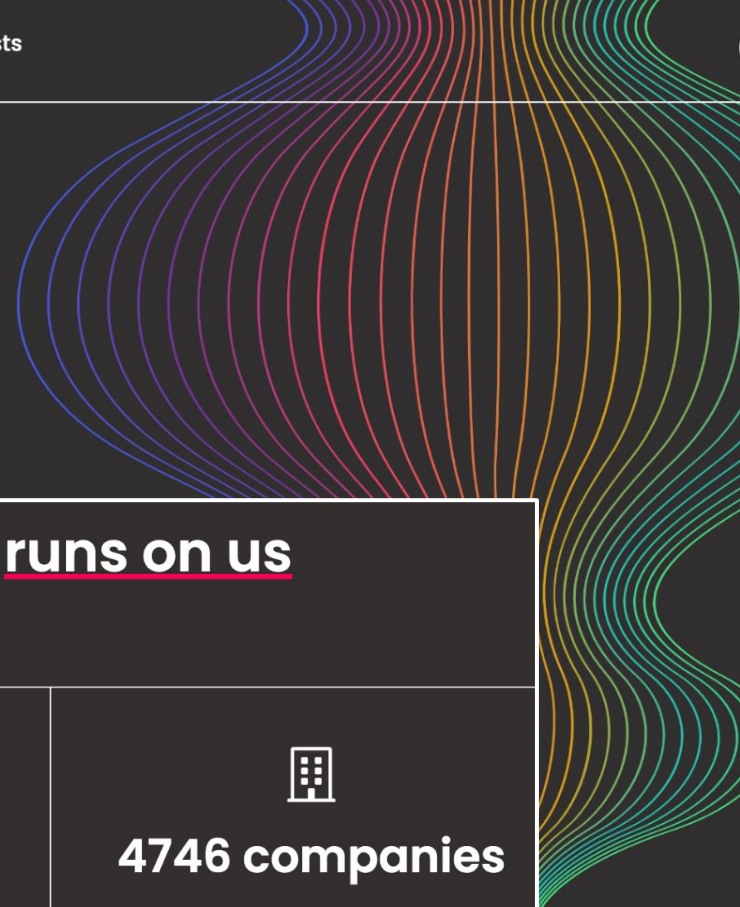

2 billion dollars

distributed every year thanks to the metadata we provide

4746 companies

around the world run on our OS

Our Operating System connects and empowers

Broadcasters

Get metadata-complete music usage reports for all your shows and ads without lifting a finger.

Publishers

Catch every usage of your music to pocket every play and make the most out of every market.

Labels

Better your biz by monitoring your music, tracking payments and making informed decisions based on market reality.

CMOs

Distribute more revenue with automated reporting and get insights to share with your members.

DSPs

Use our metadata-complete reports to be a better player and payer to get industry kudos.

Venues

Improve reporting to make sure royalties reach the artists who make your space the place to be.
